

**Wonderful things happen here**

Undergraduate guide 2021

# There's no place like **Surrey.**

Wonderful moments happen every day at Surrey. This guide will give you a glimpse into life on our beautiful campus in Guildford. Come and explore how you can be part of our innovative, exciting and welcoming community.

[surrey.ac.uk/undergraduate](https://surrey.ac.uk/undergraduate)

# Why Surrey?

**Professional  
Training placement option  
on almost every course**

**Safest university in the UK -  
*Times Higher Education*  
Student Experience Survey 2018**

**13,600+**

undergraduate students  
(2019-20 academic year)

**140+**

nationalities in our  
international community

**2,300+**

placement partners

**94%**

of graduates in employment  
or further study after six  
months (HESA 2018)

**Guaranteed accommodation for new students**  
(as long as you meet our conditions  
and application deadline)

in the UK's first Teaching  
Excellence Framework

# Your future starts here

Your time at university will be made up of a series of moments. These moments, big or small, academic or personal, will come together to form an unforgettable experience.

Whether it's the excitement of your first day on campus, a flash of inspiration in a lecture, securing a work placement with your dream company or celebrating a win at a Varsity match, together we create moments that matter.

If you're looking to pursue your passion or kick-start your career, our courses are designed to help you get to where you want to be. At Surrey, you'll learn from dedicated academics who are leading the way in their fields. Many remain active in their professions and are constantly developing their knowledge. So they'll teach you the most relevant and up-to-date information you need to give you a wonderful head start in your career.

Our exceptional links with industry offer fantastic opportunities for personal and professional growth. You'll make connections with people, ideas and businesses, helping you to learn and prepare for your future career.

**Choosing to study at the University of Surrey could change everything. Wonderful things happen here.**

”

# My Surrey moment

**Bbhavesh Kalaani**  
BSc Business Management

"My first impression was 'this place is beautiful'. I had walked into the Duke of Kent building to meet someone from the Admissions team. The view of the lake, campus and Guildford in the peak of summer from the office up there hit the nail on the head and I was convinced that Surrey was the place for me. I was absolutely smitten."

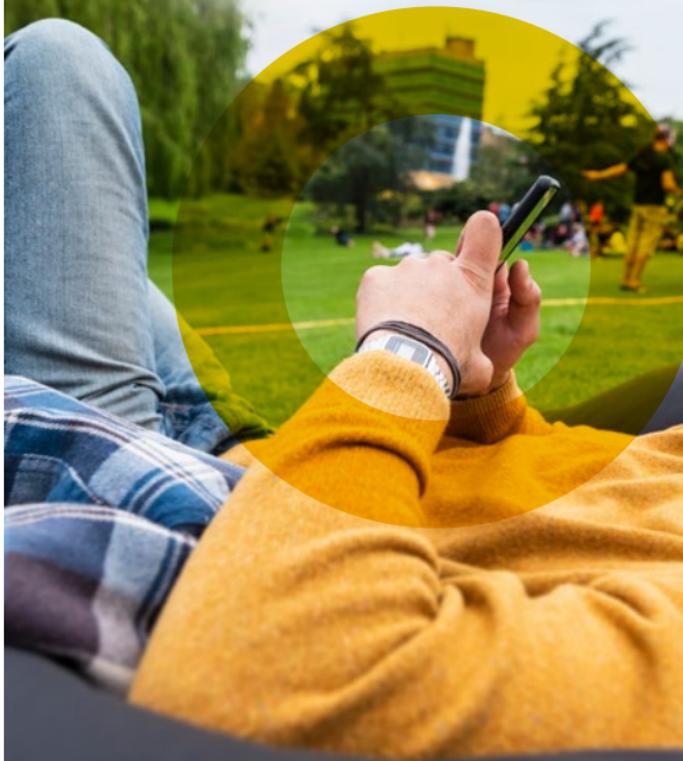

# Our campus culture

Our growing global community, set in the vibrant town of Guildford, in the heart of south-east England, is made up of more than 17,000 students across all study levels from over 140 countries.

Our self-contained campus is an inspiring place to be, with its rich culture and diverse student population. It's a place where all your Surrey moments – big and small – will happen, from moving-in day right through to your graduation.

# Your Students' Union

A registered charity, our Students' Union listens and acts on behalf of you as a Surrey student. It's run by a team of elected students, who are here to voice student opinions, provide excellent support and advice, and offer volunteering and training opportunities. Our Students' Union also hosts a wide range of exciting clubs and societies, and organises unforgettable events to ensure you have an incredible student experience.

## Student societies

Joining a club or society is a great way to meet like-minded people. There are over 180 to choose from at Surrey, including everything from mountaineering, mixed martial arts and dance, to politics, sailing and yoga. You can even start your own.

## Volunteering and fundraising

From hockey coaching to music recitals, at Surrey you'll have many opportunities to get involved in the local community. Last year, our students racked up an amazing 22,000 volunteering hours.

## Community-led events

You'll find a range of Students' Union organised events and activities at Surrey. From One World Week – our annual celebration of culture, heritage and traditions on campus – to Varsity, the unmissable sporting competition of the year showcasing Team Surrey.

## Support and wellbeing

The Students' Union also offers support services to help promote positive wellbeing at Surrey. They can provide advice on matters relating to your academic interests, and support for your health and wellbeing. This includes Nightline, a confidential student-run listening service and the 'Let's Talk' campaign which encourages open discussion on mental health and wellbeing.

[ussu.co.uk](http://ussu.co.uk)

# Student perspective

**Amy Comber**  
**BSc Psychology**

“One of the reasons I chose to come here is because I liked the green spaces. I went to visit lots of other universities and they felt quite school-like. Surrey felt much more homely and welcoming.

Even if you live and work on campus there are still places, like the lake, where you can go and get some headspace.

The location is one of the best things about being here. The town is right next to us and it's easy to get everywhere. It's close enough for me to go to London if I want to.”

# Professional Training placements

Whether you know where you're going or want to find out, we're here to help our students secure graduate jobs. Our track record for graduate employability is one of the best in the UK, with 94 per cent of Surrey's graduates in work (or further education) within six months of graduating (HESA 2018).

## Giving you the competitive edge

Surrey is highly unique in offering Professional Training placement opportunities in almost all of our undergraduate courses. This optional programme lets you spend up to a year of your course working at one of our 2,300+ partner organisations in the UK and abroad, helping you on your journey to a wonderful career.

Completing a placement broadens your perspective, provides great experience, builds your network of connections, and gives you a head start in the graduate job market.

Our Employability and Careers team will help you prepare for your placement, giving you the professional and personal skills you need to succeed. The majority of placements are paid, and we'll support you every step of the way, whatever kind of placement you decide to pursue.

To learn more about Professional Training placements, visit:

[surrey.ac.uk/placements](https://surrey.ac.uk/placements)

**95%**

of students feel more employable after a placement\*

**42%**

of students receive a job offer due to their placement\*

\*Data based on Professional Training Returners' Survey 2018.

# Student perspective

**Shankary Ravichelvam**  
**BSc Economics and Finance**

“I’ve just come back from my placement at the Walt Disney Company as a finance intern. It was a great experience where I could put my degree to use and push myself out of my comfort zone in a professional working environment.

I worked for Disney Channel’s emerging markets, where I did a lot of financial analysis and cost analysis. My main responsibility was working with the marketing teams to ensure they stuck to their yearly budget.

I’ve definitely grown on a personal level and academically. I’ve developed my ability to work within a team and with people across different levels of seniority, such as the Director and Vice-President of the department. It was challenging but I really learned how to present myself.”

# Employability and careers

At Surrey, we focus on preparing you for your future career right from the very beginning. As part of our student community, you'll be supported in a number of ways to boost your employability.

## Careers support

Whether you want to improve your networking skills or need support writing your CV, our dedicated Employability and Careers team can offer valuable advice.

## One-to-one appointments

Our team of professionally qualified careers advisers can guide you in one-to-one sessions and tailor their support to you.

## Careers events

Throughout the year, we host events that connect you with professional opportunities, including two large careers fairs which attract a variety of employers offering graduate roles and placements.

## Surrey Pathfinder

Our online service, Surrey Pathfinder, is a digital hub with 24-hour access. You'll find everything from careers appointments and event bookings to job listings, placements and interactive development tools created to enhance your employability.

## Campus job agency

Unitemps is our on-campus job agency. It can help you find part-time work within the University and with local businesses in and around Guildford.

[surrey.ac.uk/careers](https://surrey.ac.uk/careers)

## **Student Enterprise**

If you aspire to start your own business, develop your enterprise ideas or gain practical transferable skills, our Student Enterprise programme could be for you. It offers a like-minded community, challenges and training designed to give you a taste of entrepreneurship and maybe even a launchpad for your start-up company.

[surrey.ac.uk/student-enterprise](https://surrey.ac.uk/student-enterprise)

## **Extra-curricular courses**

Alongside your degree, we offer free extra-curricular courses to enhance your professional prospects and build your confidence. You could learn the skills you need to stand out in the job market with our Employability Award, take up or continue to learn foreign languages, or even gain a better understanding of the issues affecting the sustainability of our world with our Global Graduate Award in Sustainability.

[surrey.ac.uk/extracurricularstudy](https://surrey.ac.uk/extracurricularstudy)

## **Graduate support**

As a graduate of the University of Surrey, you'll be entitled to careers appointments for up to three years after you complete your studies and to lifetime access to Surrey Pathfinder's interactive development tools.

[surrey.ac.uk/employability-and-careers/graduates](https://surrey.ac.uk/employability-and-careers/graduates)

# Student perspective

**Diana Ogunyó**  
**BSc Biological Sciences**

“Instead of a Professional Training placement I did two summer internships. The way you apply for internships is slightly different to applying for a job and the Employability and Careers team was really good in offering the support I needed for interviews, assessment centres and applications.

It sounds like a cliché but the best thing about Surrey for me is the people and how comfortable they've made me feel here. Everyone I've met has been so nice and welcoming – I've always been made to feel that I can seek help if I want it.”

# Our Surrey community

At the University of Surrey, we want you to make memories that last a lifetime, open your mind to new possibilities and be proud to call yourself a Surrey student. To ensure you make the most of your time here, we offer a range of help, advice and support services.

## **MySurrey website, app and MySurrey Hive**

MySurrey is your bespoke online portal giving you access to all our support and advice, as well as news and events, 24 hours a day on our website and app.

MySurrey Hive is at the heart of our Stag Hill campus. Open 8:30am–11:30pm, 365 days a year, it's a space to study and socialise, and it provides information on many aspects of student life. The Hive offers a welcoming environment where you can be confident that dedicated staff will be available to support you with any questions you may have – from accommodation and transport to visas and money, careers and employability. In addition, we have introduced helpdesks called 'Academic Hives' on campus to provide you with support related to your course, including modules and assessments.

### **Wellbeing and welfare**

We support living and lifestyle experiences which, through both on-campus and off-campus facilities and services, can help build your confidence, independence and identity. We also encourage you to have a healthy and balanced lifestyle.

### **Centre for Wellbeing**

Our Centre for Wellbeing is a place where you can come to talk through a personal, emotional or psychological issue. We also offer a number of workshops providing techniques to help combat stress and enhance wellbeing.

### **Student Life Mentors**

We have Student Life Mentors who are all experienced students. They'll help you settle in and make friends, and act as an approachable and accessible welfare presence throughout your first year.

### **Residential Wardens**

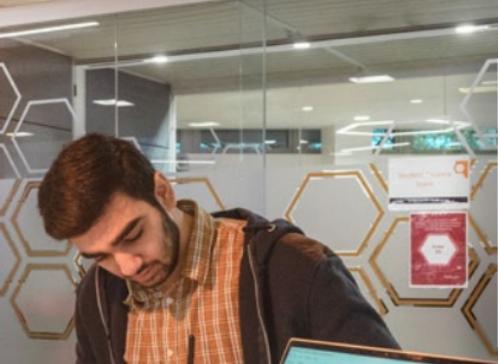

We also have Residential Wardens who are based in our halls of residence. They are responsible for the general welfare and discipline of all students living on campus.

### **Faith and spirituality**

We are a vibrant, multi-faith and multi-cultural community. We respect people of all faiths and beliefs for all they bring to university life. Our chaplains will be very happy to listen and support you.

### **Disability and neurodiversity**

Our Disability and Neurodiversity team provides confidential information and advice for a wide range of disabilities including medical conditions and specific learning differences. We can also help with the Disabled Students' Allowance.

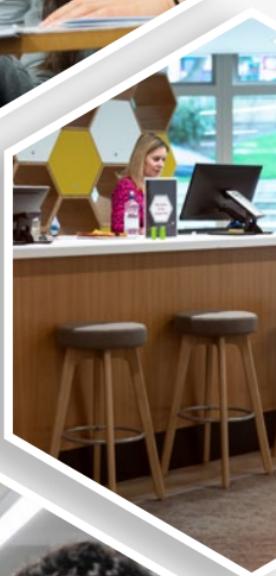

## Library and learning support

Our library offers a varied study environment at the centre of our Stag Hill campus.

With wi-fi available throughout, the library includes individual, group and silent study areas, printing and photocopying self-service machines, computers, group study rooms and language learning facilities. You'll also be able to access a wide range of services and information online, including our virtual learning environment, SurreyLearn.

The library hosts our Academic Skills and Development team who can work with you to improve your academic skills such as writing, presenting, revision and critical thinking, to help you fulfil your potential.

# Sport at Surrey

Surrey Sports Park, located on our Manor Park site, is one of Europe's leading sports venues and has set a new benchmark for the quality of university sports facilities in the UK and beyond. As soon as you step inside our £36m facility, you'll understand why.

Whether you're looking to represent the University in your sport, try out a new gym class, join our casual drop-in sessions or intramural leagues, or even just get rewarded for walking to lectures, we have something for you.

- ▶ One of the largest and most diverse range of sports, dance and group fitness classes of any UK university
- ▶ Facilities include a 50-metre swimming pool, 120-station gym, three artificial pitches and a climbing centre
- ▶ Discounted membership for University of Surrey students
- ▶ The home of Team Surrey, our very own sports brand with over 40 clubs for all skill levels and abilities
- ▶ High Performance Athlete Support Scheme designed to help you fulfil reach sporting potential and achieve academic excellence
- ▶ Sports scholarships worth between £500 and £3,000.

[surrey.ac.uk/sport](https://surrey.ac.uk/sport)

# My Surrey moment

**Matthew Bone**  
BSc Chemistry

“The sports facilities at Surrey are fantastic and easily one of the best parts. The Sports Park gym leaves you spoilt for choice and the Olympic-standard pool is something you’d struggle to find at other universities. The campus in general is also a very nice environment; a good mix of green spaces and amenities in amongst the departments.”

# Our international community

If you're applying to Surrey as an international student, we're here to help you throughout the process – from choosing the right course to applying for a visa and preparing for your first few weeks at Surrey.

## A warm welcome

Before you come to the UK you can find lots of helpful information on our website, including:

- ▶ Registering on your course
- ▶ Opening a UK bank account
- ▶ Immigration and visas
- ▶ What to pack
- ▶ Who to contact if you have any questions.

We run a free meet and greet service at Heathrow and Gatwick airports, so you'll see a friendly face in the arrivals hall to help you with your journey to our campus.

Once you've arrived here, you'll be invited to a special orientation programme full of social events and activities for international students. It's a great chance to settle in, socialise and meet new friends before the other new students join us for Welcome Week.

## Preparing for your degree

We help you prepare for your studies with courses designed to get you used to university-style teaching and develop your academic and English language skills.

From day one you will be welcomed into the University community with full access to our facilities, while receiving specialist support on your way to your chosen degree.

Our pre-sessional English language courses offer intensive English preparation for your studies, if you wish to improve your language skills or if you need to complete a pre-sessional course as a condition of your degree offer.

The International Foundation Year is a programme of academic subjects, study skills and English language training designed specifically to prepare you for your undergraduate degree. You can choose from a number of routes with modules related to the degree you are looking to progress to.

# 38%

We work with a large network of education agents in other countries

# My Surrey moment

**Remina Aleksieva**  
BSc Psychology

“When I came here I was really scared because I’d never been to the UK before, but the University made me feel that I wasn’t alone and that I can talk to people when I have a problem. I like the campus because it feels like you’re part of a community – it made it easier to socialise and make new friends.”

lululemon

# Global opportunities

Studying for a degree at Surrey opens up a world of opportunity. You can take advantage of our international connections, explore the world and expand your skills, enabling you to stand out in the graduate job market.

## International adventures

We offer study and work options in over 30 countries worldwide. You can study at one of our 90+ partner universities or spend your Professional Training placement working at one of our 250+ international placement providers.\*

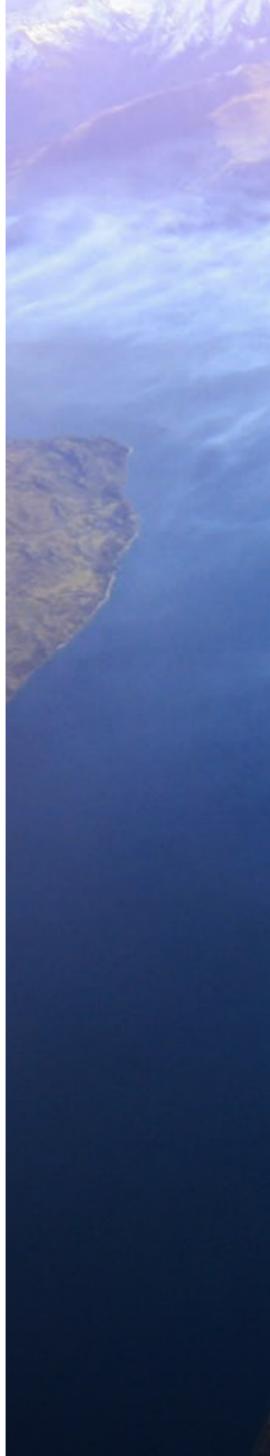

## Study abroad

Whether you want to gain international experience, discover a new culture or learn a new language, most of our courses give you the opportunity to study and/or work abroad as part of your studies.

You could also choose to attend a summer programme at one of our partners around the world. These are a great way to study, volunteer or work abroad without committing to a full year or semester.

[surrey.ac.uk/student-exchanges](https://surrey.ac.uk/student-exchanges)

\*Please note: the status of the Erasmus+ scheme is dependent on the outcome of the Brexit negotiations.

# Student perspective

**Kelly Pang**  
**BA English Literature**  
**with Film Studies**

“I got the chance to go on a summer school programme in Hong Kong, which was a really nice experience. It’s different from being at Surrey and it gives you a chance to study abroad just for the summer.

I studied artificial intelligence with science fiction, which is very different intellectually from what I do at uni.

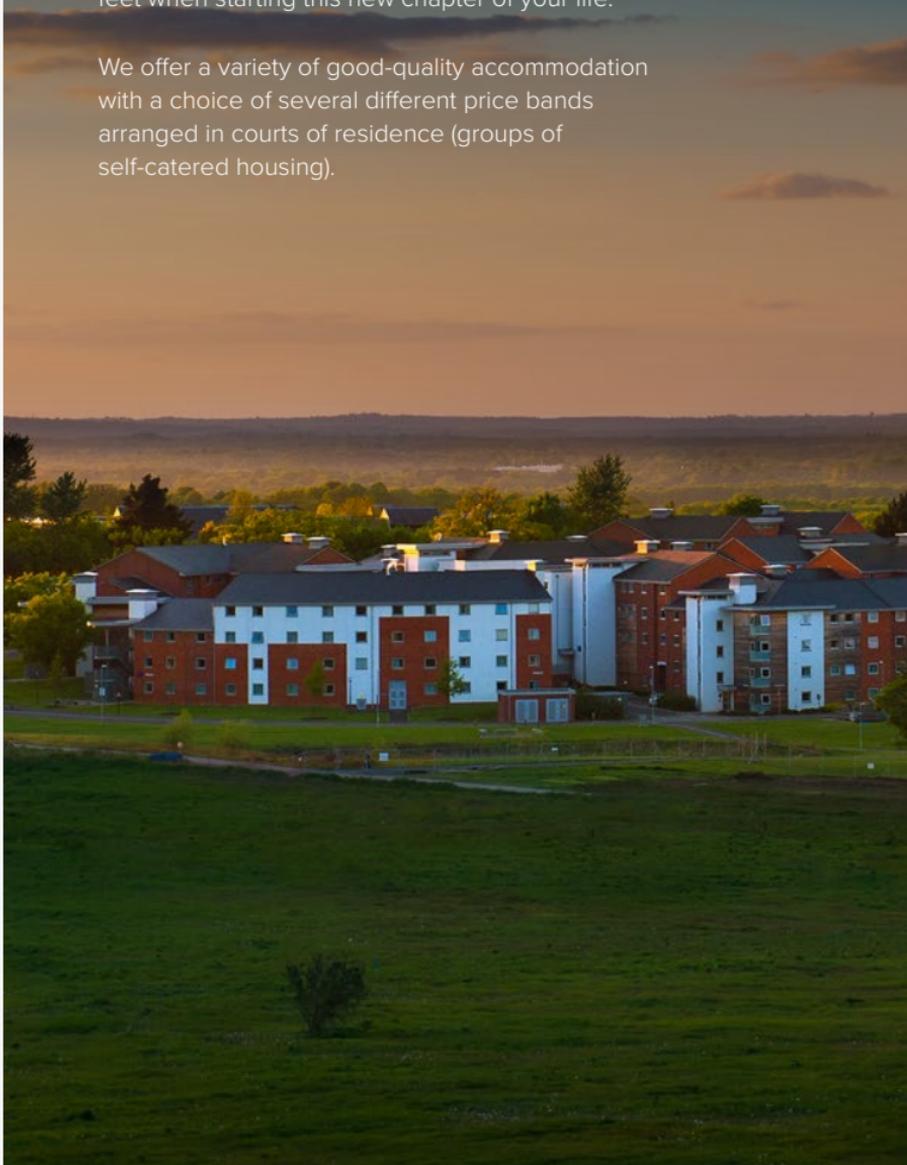

It was nice to meet different people from different cultures – there were so many people from different places, like Brazil and Canada.”

# Accommodation

Living in student accommodation is a great way to meet new people, spark friendships and find your feet when starting this new chapter of your life.

We offer a variety of good-quality accommodation with a choice of several different price bands arranged in courts of residence (groups of self-catered housing).

## Pricing

Our university accommodation is arranged in clear price bands to make choosing a suitable room easier.

### **Band A Shared – £72 per week**

172 budget shared rooms at Stag Hill

### **Band A Single – £74.50 per week**

224 budget single rooms at Hazel Farm

### **Band B – £87.50 per week**

132 basic single rooms at Hazel Farm

### **Band C – £99.50 to £108 per week**

1,458 standard rooms at Stag Hill

### **Band D – £148 to £157.50 per week**

3,564 en-suite rooms at Stag Hill and Manor Park

### **Band E – £183.50 to £189 per week**

333 enhanced en-suite rooms at Stag Hill and Manor Park

### **Band F – £231 per week**

156 studio flats (suitable for couples) at Manor Park

Please note that all prices were correct at time of printing (2020-21 prices) and are subject to change.

[surrey.ac.uk/accommodation](https://surrey.ac.uk/accommodation)

# 10 FACTS ABOUT ACCOMMODATION

- 1.** We offer guaranteed accommodation for new undergraduate and postgraduate students (as long as you meet our conditions and application deadline).
- 2.** We have over 6,000 bedrooms across Stag Hill, Manor Park and Hazel Farm (on the outskirts of Guildford).
- 3.** We have invested over £200m in our student accommodation.
- 4.** All accommodation is self-catered and over 50 per cent of rooms have en-suite shower and toilet facilities.
- 5.** Broadband and possessions insurance are included in the rent.
- 6.** Most accommodation is mixed-sex, but you can apply to live in a single-sex flat. You can also apply for quiet and alcohol-free accommodation.
- 7.** Students with specific accommodation needs can be supported by our Disability and Neurodiversity team.
- 8.** All our accommodation has a residential warden service, plus you'll be supported in your first year by our Student Life Mentors.
- 9.** Our accommodation was shortlisted in the top 20 *Student Crowd Best Student Accommodation Awards 2018* and named the number one university in the UK for security in the Times Higher Education Student Experience Survey 2018.
- 10.** Our multi-award-winning lettings agency, University of Surrey Lettings, can help you find private accommodation in the Guildford area. This is especially helpful for your second year onwards.

# Student perspective

**Philip Efthimiou**  
Department of Sociology

“Living in halls was the best way to start off my time here at Surrey. I met some of the kindest people that I ended up staying best mates with.

It’s nice knowing you have a friend to cook, chill or go out with who lives right next door.

Having the Student Life Mentors visit our flats also made me feel supported and that I had someone I could easily reach out to whenever I needed help.”

# Our facilities

We're always looking to make your student experience the best it can be. As a Surrey student you'll have access to:

- ▶ A £16m Library and Learning Centre, open seven days a week
- ▶ Surrey Sports Park, one of the best sports facilities in Europe and the home of Team Surrey
- ▶ MySurrey Hive, a central place on campus for support and advice on student life (see pages 28-29)
- ▶ MySurrey Nest, a new space where you can seek solace in a calm, quiet and relaxing environment, aimed to promote wellbeing and 'me' time.

# Wonderful learning environments

We have a variety of study spaces, equipment and resources across our academic subjects to help you reach your full potential. Some of our most notable facilities include:

- ▶ A state-of-the-art pilot plant facility within the Department of Chemical and Process Engineering, which enables you to experience chemical processes used in industry
- ▶ A specialist computer science laboratory, opened in September 2019, following a £1.7m investment
- ▶ Future AI for Robotics in Space hub – FAIR-SPACE – led by the University, which includes a space terrain simulation area
- ▶ An Innovation for Health Lab and the Student Project Lab in our School of Biosciences and Medicine
- ▶ A new psychology space featuring 22 independent project labs, a digital teaching lab, behavioural observation labs and a collaborative working space
- ▶ A state-of-the-art teaching theatre within our School of Health Sciences building and the Surrey Clinical Skills and Simulation Centre SC<sup>2</sup> which includes wards, an ambulance, and video and digital capabilities in the 'Immersive Suite'

- ▶ Three professional-standard recording studios, including a newly refurbished concert venue, TV studio, edit suites, Mac labs, critical listening room and the unique Moog Sound Lab (UK) in our Department of Music and Media
- ▶ Some of the best professional training facilities in the UK conservatoire sector at Guildford School of Acting, including The Bellairs Theatre, Rex Doyle and PATS Studio Theatres, 17 dance studios, 10 practice rooms and a state-of-the-art Scenic Studio workshop
- ▶ One of the UK's only student training kitchens and restaurants in our School of Hospitality and Tourism Management, the Lakeside Restaurant, offering an immersive professional training environment where students can develop their management and culinary skills.

Come and explore our facilities at an open day:

[surrey.ac.uk/open-days](https://surrey.ac.uk/open-days)

# Student perspective

**James Harvey**  
**MEng Mechanical Engineering**

“The facilities are amazing – I’ve been to a lot of universities and the things that they’ve got here are incredible.

In engineering there’s definitely a good balance between the practical side and lectures. You sit in lectures and take in all the information, then you go to workshops and do the more practical, hands-on side. The balance of that is great here.

The teaching staff are really dedicated and excited about the material that they teach.”

# Get to know Guildford

Just 10 minutes' walk from campus, Guildford town centre is an exciting blend of cultural, historical and modern attractions. You'll find shops, clubs, pubs and bars, as well as theatres and entertainment venues. Surrounded by stunning green countryside, you'll quickly find Guildford is also the ideal place to connect with nature.

## **Your base for new adventures**

Guildford and the surrounding areas offer stunning landscapes and exciting activities. One day you could be taking a relaxing walk in the Surrey Hills, the next you could be riding a zip wire, paintballing in the woods or mountain biking through the countryside.

If you're a car enthusiast, you can visit Brooklands in Weybridge, the home of motorsport, aviation and Mercedes-Benz World. Or you could try a karting challenge at Daytona Sandown Park. For the thrill-seekers, nearby theme parks Chessington World of Adventures and Thorpe Park offer the perfect escape.

# TOP 5

## Activities

- 1. Guildford Spectrum Leisure Complex**  
A multi-use sports venue, home to an Olympic-sized ice rink.
- 2. The Electric Theatre**  
A lively entertainment and arts venue.
- 3. Unplug + Play**  
A unique board games café decked out with over 400 games.
- 4. Guildford Escape Rooms**  
An exciting and interactive live game challenge.
- 5. AirHop Trampoline Park**  
An indoor trampolining venue for all ages.

## Eateries

- 1. Zucchini**  
An authentic Italian restaurant.
- 2. Fresco DeliKafessen**  
An independent coffee shop and deli.
- 3. Sushi Nara**  
Japanese and Korean cuisine.
- 4. The Tea Terrace**  
A quirky café offering traditional English afternoon tea.
- 5. Meat the Greek**  
Delicious Greek and Mediterranean food.

## Green spaces

- 1. Guildford Castle grounds**  
Beautiful lawns and flower beds surrounding the castle ruins.
- 2. Stoke Park**  
Guildford's largest park with award-winning Green Flag status.
- 3. The River Wey towpath**  
Perfect for riverside walks or picnicking.
- 4. The Mount**  
Breathtaking views just ten minutes' walk from the town centre.
- 5. Pewley Downs**  
Local nature reserve with views of Guildford and across the South Downs.

## Nightlife

- 1. The Boileroom**  
A live music venue hosting local bands.
- 2. King's Head**  
Home to outstanding food and lively pub events.
- 3. Wooden Bridge pub**  
An ideal spot for fun quizzes and sports events.
- 4. The Star Inn**  
A cosy and historic live music venue and pub.
- 5. Bar Thirteen**  
A nightclub boasting two floors of great music.

# Student perspective

**Louis Emmitt-Stern**  
**Guildford School of Acting**

“There’s a communal feel on campus that extends into Guildford. It’s quite a lively student town but it also has a really nice local community, so you’ve got a mix of the familiarity that you have on campus with a real sense of warmth from those people.

There are loads of bars and clubs in town, so Guildford can be a really great night out. The Spectrum Leisure Centre is also a good place to hang out – there’s an ice-skating rink, a bowling alley and a pool with waterslides, and it’s all indoors so it’s perfect for a rainy day or for something different at the weekend.

Guildford has such great transport links – it’s so good to just hop on a train and in around 30 minutes be in the West End seeing world-class theatre. As a theatre student that’s an amazing advantage and it’s an incredible opportunity to be so close.”

# Fees and funding

At Surrey, we appreciate that going to university can be a big decision and understand how important it is for you to feel supported throughout your journey with us. That's why we focus on doing everything we can to support you, every step of the way.

## Our tuition fees

Our tuition fees for UK and EU undergraduate students are currently £9,250 per year. Courses that include a foundation year also cost £9,250 for the year. If you're taking a Professional Training year as part of your course, the fee is currently £1,850 for the year, or £1,385 if it's part of the Erasmus+ scheme. Please note: the status of the Erasmus+ scheme is dependent on the outcome of the Brexit negotiations.

All of our tuition fees are subject to annual review. For the latest information, including fees for international students, please check our website.

## Student loans

The two main costs you will face as an undergraduate student are tuition fees and living costs. Student loans are available from Student Finance England to cover both of these costs. They work like this:

- ▶ The Government loans you the money to pay your tuition fees and living costs
- ▶ You pay the Government back, in instalments, after you graduate
- ▶ Your repayments are in proportion to your income
- ▶ You only start repaying when you earn over a certain amount, currently £25,725
- ▶ Repayment rates are decided in advance, so there shouldn't be any unexpected changes
- ▶ If you qualify for benefits, have a disability or have dependants, you might be entitled to higher maintenance support to help with living costs.

For full details and qualifying criteria, please visit:

[gov.uk/student-finance](https://www.gov.uk/student-finance)

## Scholarships and bursaries

We encourage applications from everyone with the ability to study for a Surrey degree. We're also committed to offering support to students who need it and have a range of scholarships and bursaries based on personal circumstances.

Please visit our website to see awards that are currently available.

## Additional costs

For some courses, particularly those with a practical element, there may be additional costs. For example, you may need to pay for equipment, materials, clothing or bench fees.

For further information as to whether you may incur these additional costs, please refer to the relevant course page on our website.

## Support

Our friendly and professional Student Money team are here to support you while you're studying with us. You can get free and confidential one-to-one guidance if you have any queries or concerns about your finances.

[surrey.ac.uk/fees-funding](https://surrey.ac.uk/fees-funding)

# How to apply

Deciding to apply to Surrey might be one of the most important moments of your life. You'll be opening doors to new friends, places and ideas, and ultimately taking the path towards your future career. Here's how you can get started.

## Applying through UCAS

You must apply for our full-time undergraduate degree courses, and our foundation courses, through the Universities and Colleges Admissions Service (UCAS).

**Our UCAS code is S85.**

You can find out how to complete your application on the UCAS website, and you can also contact UCAS directly for further information.

**[ucas.ac.uk](https://ucas.ac.uk)**

**+44 (0) 371 4680 468**

**+44 (0) 330 3330 230**

If you want to study at Surrey but don't have an offer, you might be able to secure a place through Adjustment or Clearing. We'll publish details of any Clearing spaces on our website in August 2021.

If you've used all five choices in your UCAS application and don't hold any offers, or if you've declined any you have received, you can make a new application through UCAS Extra. UCAS Extra runs from February to June each year. You'll be able to find all our courses that are still taking applications through Extra on UCAS Search.

### When to apply

You can start your UCAS application from June 2020, and submit it from early September 2020.

Your application should be with UCAS by one of the following dates, depending on which course you're applying for:

- ▶ 15 October 2020 for BVMSci Veterinary Medicine and Science, for both UK/EU and international applicants.
- ▶ 15 January 2021 for all of our other courses for equal consideration. We might close some courses to applications after this date, so we recommend you apply by 15 January.
- ▶ 30 June 2021 is the final deadline. We enter all applications we receive after 30 June into Clearing.

## Applying to Guildford School of Acting

If you're applying to our BA Acting, BA Actor-Musician or BA Musical Theatre courses, you'll be invited to an audition and will need to pay a non-refundable audition fee. If you demonstrate exceptional talent and satisfy the selection panel of your ability to complete the course, you may not need to meet the usual academic entry requirements.

If you apply for our BA Theatre Production course, you'll be invited to attend an interview.

If you're applying for our BA Theatre (one-year conversion course), Musical Theatre Foundation or Acting Foundation courses, you should apply online through the University of Surrey website. You can find out more about these courses at: [gsauk.org/courses/foundation/foundation-acting](https://gsauk.org/courses/foundation/foundation-acting)  
[gsauk.org/courses/foundation/foundation-musical-theatre](https://gsauk.org/courses/foundation/foundation-musical-theatre)

## Applying as an Erasmus+ or exchange student

If you're applying as an Erasmus+ or exchange student, you'll first need to be nominated to our Global Engagement Office by your university. We'll then send you a link to our online application form.

## Applying for a degree apprenticeship

You'll need to find an employer that will support you before you can apply for a degree apprenticeship. Once an employer has confirmed they will support you, you can apply through our website. Find out more about applying for apprenticeships at:

[surrey.ac.uk/degree-apprenticeships](https://surrey.ac.uk/degree-apprenticeships)

## General requirements and qualifications

For entry requirements and to check whether the qualifications you're taking are suitable for your chosen course, please see the course pages on our website. If you're not sure whether your qualification meets our entry requirements, please contact us:

**[admissions@surrey.ac.uk](mailto:admissions@surrey.ac.uk)**

**+44 (0)1483 682222**

## English language requirements

You need to have a good standard of English to study with us, the exact level of which is different for each course. Please check our website for our full English language requirements and for details of what English language qualifications we accept:

**[surrey.ac.uk/apply/international](https://surrey.ac.uk/apply/international)**

## Admissions policy and selection

We'll decide whether to make you an offer based on your academic merit and your proven ability to succeed on your chosen course.

We usually expect you to have achieved, or be predicted to achieve, our minimum entry requirements. However, we take all aspects of your application into account when we decide whether to make you an offer.

If we make you an offer to study at Surrey, you'll be required to accept our terms and conditions which will be detailed in your offer letter. You can find details of our full admissions policy on our website:

**[surrey.ac.uk/apply/policies/undergraduate-admissions-policy](https://surrey.ac.uk/apply/policies/undergraduate-admissions-policy)**

**[surrey.ac.uk/apply/undergraduate](https://surrey.ac.uk/apply/undergraduate)**

**Surrey offered a great course that is not offered by many other universities. I knew that I would enjoy it as well as learn invaluable skills.**

**Kirstie Lardner**  
MEng Biomedical Engineering

# Our courses

There are lots of ways you can study for a degree with us. We offer multiple study options to make sure you get the knowledge, skills and experience you need.

## Three-year degree

Most degree courses in England take three years of study to complete. It's possible to complete almost any of our courses in three years, which will let you start your career or move on to further study quickly.

## Four-year degree with a Professional Training placement

Many of our degree courses include a Professional Training placement, where you'll usually spend one year working in a business to develop your skills, make connections, and get a taste of what it's like to work in your chosen industry.

See pages 20–21 for more information about our Professional Training placements.

## **Integrated masters degree**

Many of our subject areas give you the option of studying for a degree course with an integrated masters year. This means that you'll graduate with a masters-level degree. Each of these subjects approach this differently, depending on what you need and what you want to get from it, whether that's accreditation, research skills or a deeper level of knowledge or understanding.

For more information on the integrated masters year, visit: [surrey.ac.uk/study/integrated](https://surrey.ac.uk/study/integrated)

## **Degree with a foundation year (UK/EU)**

We offer some of our undergraduate courses with a foundation year of study. This additional year is designed to give you extra skills and knowledge to support your learning before you progress on to degree-level studies. If you're unlikely to meet the entry requirements for your chosen undergraduate course but are still keen to learn at Surrey, opting for a foundation year course can offer you an alternative entry route.

## **International foundation year**

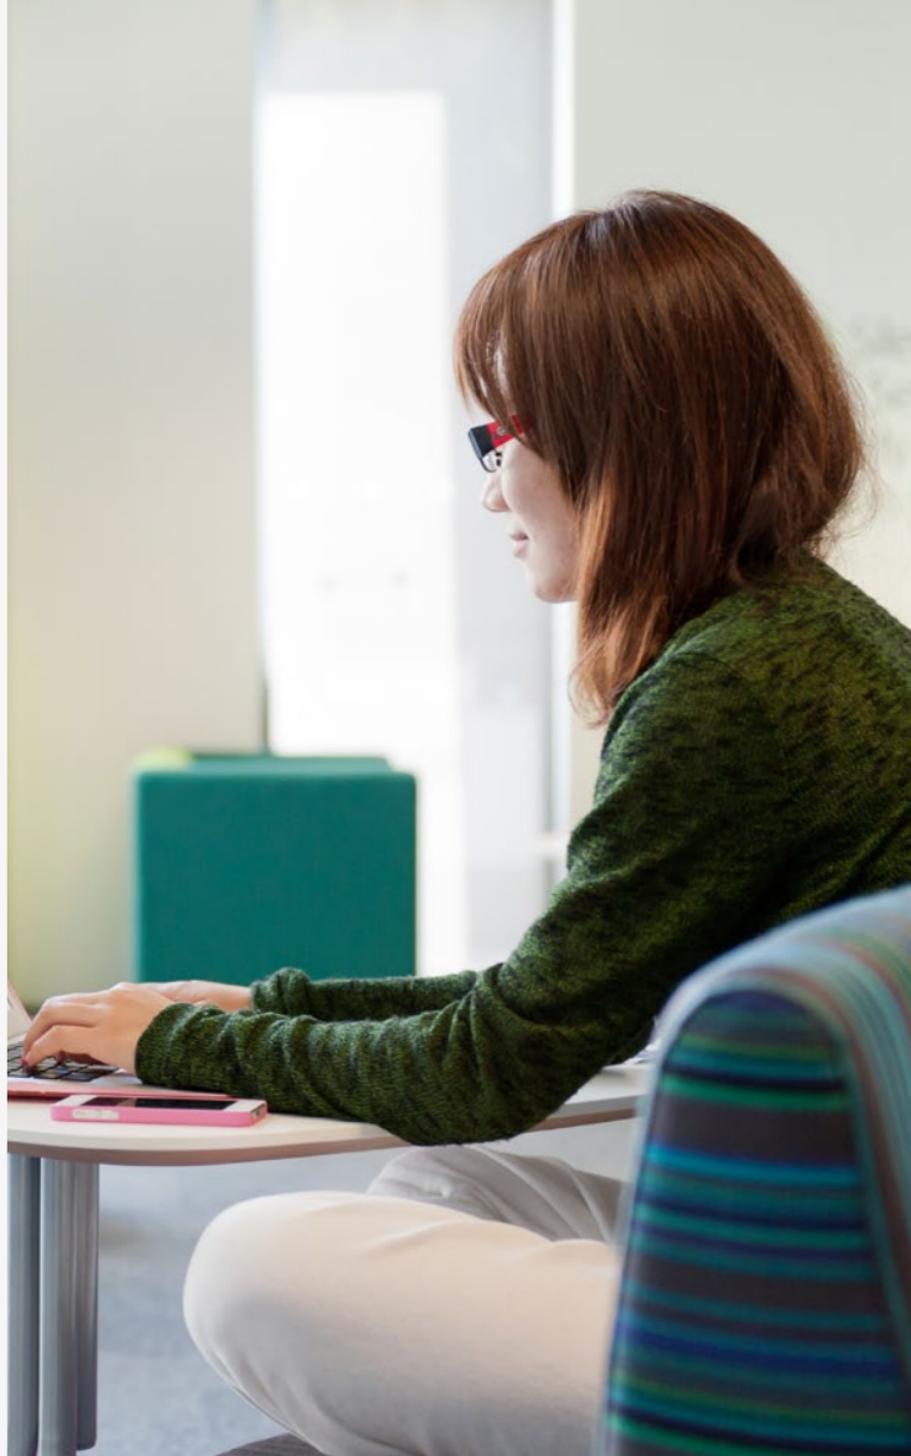

If you're applying as an international student, the Surrey International Study Centre offers a range of foundation pathways. These courses are two semesters long and, on completion, you'll be eligible to apply for the majority of our undergraduate courses (subject to meeting the progression grades required).

Find out more including start dates, entry requirements and how to apply by visiting: [isc.surrey.ac.uk](https://isc.surrey.ac.uk)

## **Degree apprenticeships**

Degree apprenticeships are partnerships between employers and universities, which combine on-the-job training with a relevant programme of study. This means you're employed throughout your course, spending part of your time at university and the rest with your employer. They're a great way for you to get workplace experience while gaining a qualification and earning a wage, with your tuition fees paid by your employer.

Discover more about degree apprenticeships at: [surrey.ac.uk/degree-apprenticeships](https://surrey.ac.uk/degree-apprenticeships)

# How to use our course table

## **UCAS codes:**

Courses with a foundation year and/or Professional Training option will have a different UCAS code for each option. Please refer to the course page on our website for all UCAS codes.

## **Required subjects:**

Please check the course pages on our website for full details of the subjects and grades you will need.

## **Foundation year option:**

If you don't meet our entry requirements for the undergraduate course, you might still be able to apply for it with a foundation year. A course with a foundation year includes an extra year of study to prepare you for a full degree course. Please check the course pages on our website for full details of entry requirements.

## **Professional Training:**

Professional Training placements usually last for one year, however this does vary for our Midwifery, Nursing, Paramedic Science, Nutrition and Dietetics, and Veterinary Medicine and Science courses where the training is integrated into the course. Please check each course page on our website for further details.

# Sustainability at Surrey

This year we decided to produce this smaller-format undergraduate guide which, compared to last year's undergraduate prospectus, has saved 42 tonnes of paper. It's also printed on Carbon Balanced Paper, which enables the World Land Trust to protect critically threatened tropical forest. Find out more at [carbonbalancedpaper.com](http://carbonbalancedpaper.com)

- ▶ Over 99 per cent of our waste is diverted from landfill and 52 per cent is recycled
- ▶ A 5p charge has helped divert 87,000 disposable cups from waste
- ▶ We have eliminated plastic bags from the Students' Union nightclub and the SimplyFresh shop on campus
- ▶ We're embedding sustainability into our curriculum and supporting several projects, dissertations and theses on the topic
- ▶ We have reduced our carbon emissions, electricity usage and gas usage compared to the previous year
- ▶ We installed over 50 Nextbikes and eight docking stations across Stag Hill and Manor Park
- ▶ We introduced Passive InfraRed sensors in over 26 washrooms on campus, which have saved over 12 million litres of water.

We know there's more we can do to keep reducing our carbon footprint and we are committed to incorporating sustainability across all our operations, teaching and research.

[surrey.ac.uk/sustainability](http://surrey.ac.uk/sustainability)
